

## *Veni Creator Spiritus*

This symbol was created for the 2010 Extended General Council. The fifty flames which form the shape of the Spirit's fire express the fullness of the Easter season. The wind and flame combine in extending the ancient plea, "veni", sevenfold as we welcome the gifts that the Spirit sends. We widen this magnetism calling out to the Creator Spirit to hear our request while centering ourselves within the Spirit.

Our SSND Units are graced with an element of the Spirit as Creator and we gather together in the upper room of the EGC to reach our fullness. We unfold into oneness of Spirit grace.
